

# Are You Neglecting Your Body's Largest Organ?

Protect your skin against free radicals from sun exposure, pollution and other chemicals.

By Chris O'Keefe

Most people don't properly care for their skin, which is exposed daily to harsh chemicals and pollutants. With Complete Skin Care, you can take the simple approach to healthier, younger-looking skin.

Complete combines nature and science to cleanse, exfoliate, moisturize, repair, improve and maintain overall skin health. It combines visible anti-aging benefits in a daily skin care program that works for all skin

types. This streamlined approach gives you the gift of time to enjoy the beauty in your life.

Complete Skin Care is a patent-pending formulation that contains Sodium Tripolyphosphate (STPP). STPP is man-made phosphate salt known to be a chelating agent.

It can be used as active principals in topical applications to treat various skin conditions including dry or blemished skin, acne, psoriasis, stretch marks, eczema

and calluses. It is believed that STPP is able to penetrate the skin's surface and provide nutrients directly to the underlying layers of skin, thereby reducing wrinkles and damage.

STPP can also greatly reduce the ongoing production of free radicals within the skin. Free radicals are electrically charged molecules that attack your cells. Complete has the ability to deactivate these free radicals *before* they attack your cells.

## 3-in-1 Cleanser

This exclusive patent-pending complex removes dirt, makeup and dull surface cells as it treats your skin to the latest care benefits. 3-in-1 Cleanser is non-abrasive and is gentle enough to use every day, leaving your skin soft, smooth, and always fresh.

## Age-Fighting Moisturizer

Formulated with an exclusive patent-pending complex, this incredible moisturizer brings you visible anti-aging benefits in a daily moisturizer. It firms and brightens the skin as it reduces the appearance of fine lines.

Effective. Streamlined. Affordable. *Complete.*

I want to take the simple approach to healthier, younger-looking skin. Please send me \_\_\_\_\_ set(s) of the Complete Skin Care System.

My skin type is:    Oily    Normal    Dry    Patchy    Sensitive
